Today was a dificult day. I was responsible for mailing an anvelope to my friend. The issue was that the post office was on the top of the mountain. I had to asend the mountain to put the mail in the box and then desend the mountain to get home. Even though the cenery from the mountain was beautiful, it was a releaf when I was finaly done! I can't wait to get a responce from my friend. It will probably be a few weeks before I see the mail carrier make the desent down the mountain to my home.
